

## Eleven Biotherapeutics to Present at 2018 BIO CEO & Investor Conference

February 8, 2018

CAMBRIDGE, Mass., Feb. 08, 2018 (GLOBE NEWSWIRE) -- Eleven Biotherapeutics, Inc. (NASDAQ:EBIO), a late-stage clinical oncology company advancing novel product candidates based on its Targeted Protein Therapeutics (TPTs) platform, today announced that Stephen Hurly, President and Chief Executive Officer, will present a company overview at the 2018 BIO CEO & Investor Conference, taking place February 12-13 in New York City.

### Presentation Details

Date: Tuesday, February 13  
Time: 9:00am Eastern Time  
Location: New York Marriott Marquis, Odets Room  
Webcast: [www.elevenbio.com](http://www.elevenbio.com)

An archived replay of the webcast will be available on the Company's website for 90 days after the conference.

### About Eleven Biotherapeutics

Eleven Biotherapeutics, Inc. is a late-stage, clinical oncology company advancing novel product candidates based upon the Company's targeted protein therapeutics (TPTs) platform. TPTs incorporate a tumor-targeting antibody fragment and a protein cytotoxic payload into a single protein molecule in order to achieve focused tumor cell killing. Eleven's lead TPT, Vicinium, is currently in a Phase 3 trial in non-muscle invasive bladder cancer, with topline three-month data expected in mid-2018. The Company believes its TPT approach offers significant advantages in treating cancer over existing antibody drug conjugate technologies. The Company believes its TPTs provide effective tumor targeting with broader cancer cell-killing properties than are achievable with small molecule payloads that require tumor cell proliferation and face multi-drug resistant mechanisms. Additionally, the Company believes that its TPT's cancer cell-killing properties promote an anti-tumor immune response that will potentially combine well with immune oncology drugs such as checkpoint inhibitors. For more information, please refer to the Company's website at [www.elevenbio.com](http://www.elevenbio.com).
