### **Item 8.01 – Other Events.**

On July 31, 2020, Sesen Bio, Inc. (the “Company”) successfully completed the final of three commercial-scale drug substance cGMP process performance qualification (“PPQ”) manufacturing runs for Vicineum™, the Company’s lead product candidate, with its contract manufacturing organization partner, FUJIFILM Diosynth Biotechnologies U.S.A., Inc. (“Fujifilm”). As previously disclosed, the Company has partnered with Fujifilm and Baxter Oncology GmbH (“Baxter”) for the manufacturing process and technology transfer of Vicineum.

On August 4, 2020, the Company completed validation studies for the drug substance PPQ batches. The Company also received the interim certificate of analysis to ship drug substance to Baxter to complete the next drug product PPQ run. Based on this progress, the Company expects to complete the manufacturing of the full drug product PPQ campaign for Vicineum in late-September 2020.

The analytical comparability and stability data from the PPQ campaigns for drug substance and drug product are the last material deliverables for the Company to complete its Biologics License Application (“BLA”) submission for Vicineum to the United States Food and Drug Administration in the fourth quarter of 2020.
